Beverage Packages

CASH BAR

Having a cash bar is ideal for your event. If you plan on only providing food for your guests, this allows your guests to order their favourite drinks without it being at your expense. Guests will need to pay for their own drinks upon ordering at the bar.

BAR TAB

When providing the beverages for an event, a bar tab is the best way to go. This allows you to select the drinks you would like to offer your guests whilst setting a bar tab limit. A staff member will update you prior to reaching your limit to allow you to add to the bar tab or reserve the remainder of the bar tab for your key guests.

Wristbands are provided with bar tabs to ensure that only guests at your function have access to this.

DRINK ON ARRIVAL

Drink on arrival allows you to provide the first drink for your guests on you. This is done with drink tokens that you can hand to your guests to redeem at the bar.

BEVERAGE PACKAGE

Hourly beverage packages can be organised on request.
