### NEAT

If you're game, try out gins neat before altering them to understand how they change throughout this process.

### CHILL

Add in your ice, allow your gin to chill down, and give it another taste. You will be surprised by the hidden flavours that come through when the ice calms down the ethanol.

### FLOURISH

Add in your desired garnish and watch as your gin changes shape

### BUBBLES

Finally, pour in your bubbles to add a bit of sparkle to your gin drink
