Collingwood Yards Arts Precinct

Collingwood Yards is a not-for-profit arts precinct open to the public and ready to explore.

The precinct is home to artists, galleries, cultural organisations, restaurants, bars, retail stores, and offices.

Collingwood Yards is an incubator for Victoria's creative community. The unique self-sustaining model uses commercial tenancies to subsidise affordable spaces for artists and cultural organisations.

Collingwood Yards presents hundreds of public events every year including art exhibitions, markets, live music, and more.

The site was originally built in 1913 as the Collingwood Technical School, a hub of technical, art, and design education for over 100 years. The school provided significant social outcomes for the community including educating returned servicemen and post-war migrants.

The precinct is also home to the Keith Haring Mural, the artist's only remaining large-scale public artwork in Australia. Painted in 1984, Haring played hip hop music on his boom box and spoke and danced with pupils from the school. Collingwood Yards conserves the heritage-listed artwork and continues Haring's ethos of "art for everyone" through arts programming and community events.

Collingwood Yards is situated on the unceded lands of the Wurundjeri Woi Wurrung people. We acknowledge the deep significance this area holds for First Peoples and are committed to ongoing reconciliation.

Clients

Collingwood Yards works with local and international clients to deliver premium branded experiences across the precinct. With a fully integrated on-site team providing production, technical, and hospitality support, Collingwood Yards ensures seamless end-to-end solutions so your team can focus on what they do best.

“I cannot speak highly enough of the support we received. They took all the stress out of hosting an event.

They made selecting Collingwood Yards an easy and obvious choice.”

— Tandem Carers

A photograph of a night-time outdoor event. In the foreground, the back of a person with long dark hair is visible. To their left, a person in a red jacket is also seen from behind. The background is filled with a crowd of people, some looking towards the camera and others looking away. The scene is illuminated by warm, yellow string lights hanging from trees. The trees have green leaves, and the overall atmosphere is festive and social.

“Their team made the event run seamlessly,
and no question was too small or annoying.
Everything was so easy and friendly.
Brilliant team.”

CY Venue

CY Venue is a versatile events space which can be adapted to facilitate live music and performing arts, artistic and industry development events, conferences, networking and panel events, workshops, seminars, launches, and activations.

CY Venue is one of Melbourne's few fully accessible spaces, with step-free access to the venue, green room and bathrooms. Designed with inclusivity in mind, it accommodates neurodivergent needs with light and sound sensitivity, while acoustic treatment ensures high-quality sound for contemporary music.

CY Venue can accommodate up to 200 people standing or 150 seated and includes a stage, reception foyer, green room, kitchenette, and bar. IT can be hired in halves for smaller bookings or as a whole and divided for breakout spaces if required.

The space features ample natural light, blackout blinds, climate control, adjustable stage and venue lighting, and a range of furniture which can be set up in a variety of ways depending on the needs of the event.

The venue is treated to provide high-quality acoustics and is equipped with the latest technology including cameras for recording, screens, microphones, lights, and a PA.

CY Venue

CY Venue combines flexibility, accessibility, and industry-leading facilities in one space. It accommodates up to 200 standing or 150 seated, making it ideal for events of all sizes.
